**Mission Statement:** The American Sniper Association was created to enhance the image, abilities, proficiency, and safety of the professional tactical sniper through education, support and information sharing. The Association seeks to further these goals by:

- Giving special operations snipers and personnel a secure community to join
- Identifying and addressing the needs of the tactical sniper
- Providing a repository for collective sniper knowledge and a closed network for sharing the information
- Distributing a national newsletter, giving members a venue to discuss ideas, concerns, and lessons learned
- Sponsoring, endorsing, and promoting high-quality, sniper training events
- Testing and evaluating new equipment produced for snipers
- Establishing national standards of proficiency and performance to be used by snipers, supervisors, and administrators, to evaluate training and operational readiness

Membership in the association is strictly limited to active police, corrections, and military personnel only. **Application must include a photocopy of agency ID card.** Fee is \$20 for one year membership (\$30 for foreign membership). Please provide the following information.
